Title

A new method for showing nonexistence of solutions for a generalized Brezis-Nirenberg problem

Abstract:

In this talk I will present new results on the nonexistence of solutions for a generalized hyperbolic Brezis-Nirenberg problem. Here we combine a classical Pohozaev argument with a generalized Hardy inequality.

This is joint work with Soledad Benguria (U. Wisconsin).

Lunes 08 de Octubre a las 17:00 hrs, Sala de Seminarios John Von Neumann CMM, Torre Norte, Piso 7, de Beauchef 851.
