

Seminar Optimization and Equilibrium

Speaker: Profesor Orestes Bueno, Universidad del Pacífico, Lima, Perú

Title: On the construction of maximal p -cyclically monotone operators.

Abstract: In this talk we deal with the construction of explicit examples of maximal p -cyclically maximal monotone operators. To the date, there is only one instance of an explicit example of a maximal 2-cyclically monotone operator that is not maximal monotone. We present several other examples, and a proposal of how such examples can be constructed.

Date: January 20, 2021 at 10:00 (Chilean-time)

Venue: Online via Google Meet <http://meet.google.com/mqh-bgjv-iyb>
